

SPECIALIST MEDICAL REFERRAL – STEP 1

- **Standard medical referral letter from patient's Consultant abroad**

The first step for a Specialist referral is to send a standard medical referral letter by email to info@medicalsandhealth.com. We receive sub-standard letters and have put together a [sample referral letter](#), to pass on to the referring clinician

- **Information about visa status**

It is important that we know about the person's visa status from the onset. If (s)he requires a visa, this invariably delays the process. It is imperative to meet visa requirements quickly. We can provide assistance with the following: **proof of payment of relevant fees, letter from Specialist stating date, venue and time of first consultation, evidence of accommodation** (if arranged through us). The only condition we have is **full payment of agreed treatment cost in advance**. This condition is in place in order to prevent obtainment by false pretence. Unfortunately, it is a non-negotiable condition.

SPECIALIST MEDICAL REFERRAL – STEP 2

The next step is to complete the medical referral inquiry form

<http://www.medicalsandhealth.com/medical-quote.html>

Once we receive the medical referral letter, we will arrange an initial consultation based on agreed factors – city, Consultant, preferred care package, payment of all hospital fees and administrative charges, obtainment of visa (if needed) and travel arrangements

If you have any other questions, we will be pleased to answer them via e-mail: info@medicalsandhealth.com

SPECIALIST MEDICAL REFERRAL – STEP 3

Depending on the chosen package of care, we may only speak to you on telephone to ensure everything is fine or we roll out the red carpet – meet you at the airport, take you to your hotel or other accommodation, arrange transport to and from the hospital, other agreed places, perhaps take you around the sights and sounds of UK!

SPECIALIST MEDICAL REFERRAL – STEP 4

When you return to your country, we can stay in touch with you, if you wish (at agreed intervals), just to ensure that your health remains excellent.
